Contents Volume 246 2002

Volume 246 No. 1

Manganese toxicity and callose deposition in leaves are attenuated in mycorrhizal soybean
M.A. Nogueira, E.J.B.N. Cardoso and R. Hampp **1–10**

Mathematical modelling of residue allelopathy: the effects of intrinsic and extrinsic factors
M. An, I.R. Johnson and J.V. Lovett **11–22**

Potassium release rates from ustisols and their application
X. Lu, M. Zhang and J. Xu **23–29**

The significance of *Cognettia sphagnetorum* (Enchytraeidae) on nitrogen availability and plant growth in wood ash-treated humus soil
M. Liiri, K. Ilmarinen and H. Setälä **31–39**

Phosphorus efficiency of wheat and sugar beet seedlings grown in soils with mainly calcium, or iron and aluminium phosphate
P.S. Bhadoria, B. Steingrobe, N. Claassen and H. Liebersbach **41–52**

Utilisation of soil organic P by agroforestry and crop species in the field, western Kenya
T.S. George, P.J. Gregory, J.S. Robinson, R.J. Buresh and B. Jama **53–63**

Changes in phosphorus concentrations and pH in the rhizosphere of some agroforestry and crop species
T.S. George, P.J. Gregory, J.S. Robinson and R.J. Buresh **65–73**

Growth, carbohydrate and nutrient allocation of Scots pine seedlings after exposure to simulated low soil temperature in spring
T. Domisch, L. Finér and T. Lehto **75–86**

Boron requirements for *Eucalyptus globulus* seedlings
A.T. Sakya, B. Dell and L. Huang **87–95**

Spatial variability of agricultural soil parameters in southern Spain
F. López-Granados, M. Jurado-Expósito, S. Atenciano, A. García-Ferrer, M. Sánchez de la Orden and L. García-Torres **97–105**

Effects of nitrogen on leaves, dry matter allocation and regrowth dynamics in *Trifolium repens* L. and *Lolium perenne* L. in pure and mixed swards
M. Nassiri and A. Elgersma **107–121**

The fate of residual ^{15}N-labelled fertilizer in arable soils: its availability to subsequent crops and retention in soil
A.J. Macdonald, P.R. Poulton, E.A. Stockdale, D.S. Powlson and D.S. Jenkinson **123–137**

Volume 246 No. 2

The prediction of C and N content and their potential mineralisation in heterogeneous soil samples using Vis–NIR spectroscopy and comparative methods
G. Fystro **139–149**

Adsorption and anchoring of *Azospirillum* strains to roots of wheat seedlings
R. de Oliveira Pinheiro, L.H. Boddey, E.K. James, J.I. Sprent and R.M. Boddey **151–166**

Spatial and temporal dynamics of the microbial community structure in the rhizosphere of cluster roots of white lupin (*Lupinus albus* L.)
P. Marschner, G. Neumann, A. Kania, L. Weiskopf and R. Lieberei **167–174**

Iron accumulation in seed of common bean
J.T. Moraghan, J. Padilla, J.D. Etchevers, K. Grafton and J.A. Acosta-Gallegos **175–183**

Short-term effects of biological and physical forces on aggregate formation in soils with different clay mineralogy
K. Denef, J. Six, R. Merckx and K. Paustian **185–200**

Nitrogen concentration of cauliflower organs as determined by organ size, N supply, and radiation environment
H. Kage, C. Alt and H. Stutzel **201–209**

The influence of plant species, fertilization and elevated CO_2 on soil aggregate stability
V.T. Eviner and F. Stuart Chapin III **211–219**

A growth chamber for idealized studies of seedling root growth dynamics and structure
C.M. Futsaether and U. Oxaal **221–230**

A yield control approach to assess phytoavailability of Zn and Cu in irradiated, composted sewage sludges and composted manure in field experiments: I. Zinc
G. Wen, T.E. Bates, R.P. Voroney, T. Yamamoto, J. Chikushi and D. Curtin **231–240**

A yield control approach to assess phytoavailability of Zn and Cu in irradiated, composted sewage sludges and composted manure in field experiments: II. Copper
G. Wen, T.E. Bates, S. Inanaga, R.P. Voroney, K. Hamamura and D. Curtin **241–248**

The adaptation of *Dianthus carthusianorum* L. (*Caryophyllaceae*) to growth on a zinc–lead heap in southern Poland
R. Załęcka and M. Wierzbicka **249–257**

Role of plant parasitic nematodes and abiotic soil factors in growth heterogeneity of sugarcane on a sandy soil in South Africa
P. Cadet, V.W. Spaull and D.G. McArthur **259–271**

Instructions for authors **273–279**

Volume contents **281–283**

Author index **285**
